Hi all,
Attach is a draft figure with the proposed locations.

Subject: RE: figure with all MW

We are working on a revised figure with well locations – the email from Frances was not for additional locations, but two locations (one between Serrano II and Extacy and one north of D'Elegant/Walgreen) that are NOT on PSA properties that we need access for.
The total number of wells is still 13 (with one well at PRIDCO East eliminated because there is a well there already).

Susan

I just received an email (cc'ed) from Frances requesting access to 2 additional MWs.
Can you please send us a figure showing all of the proposed MW locations.
thanks
Denise
